ATLANTIC LITHIUM COMPLEX GREASE EP2
(High Temperature- Lithium Complex Grease)

DESCRIPTION & APPLICATIONS

ATLANTIC LITHIUM COMPLEX GREASE EP-2 is a high quality, lithium complex grease having high water tolerance and mechanical stability, combined with excellent high temperature performance. These are ideally suited for application by centralized grease systems due to good resistance to oil separation under pressure mechanical stability.

.ATLANTIC LITHIUM COMPLEX GREASE EP-2 provides excellent performance in anti-friction bearings and much longer life compared to Sodium or Lithium soap base greases. It is recommended for wheel bearings, earth moving equipment, gear couplings, electric motors and general industrial machinery. These greases are widely used in Steel Plants, Mining and Engineering Industry.

PERFORMANCE FEATURES AND BENEFITS

- **Long service life.**
- **Good pumpability**
- **Low friction torque**
- **High Load carrying capacity and low wear.**
- **Resistant to wash –off by water**
- **Fully compatible with other Lithium greases**
- **High Load carrying capacity and low wear.**
