

ATLANTIC ATF ULV

Synthetic Ultra-Low Viscosity Automatic Transmission Fluid

DESCRIPTION

ATLANTIC ATF ULV is a full-synthetic, ultra-low viscosity (ULV) transmission fluid approved for use in passenger car and light-duty truck automatic transmissions meeting the requirements of most of the newest Ford and GM automatic transmissions. It is specifically designed to provide long service life and consistent shift performance for the life of the fluid, as well as better shift performance under extreme operating conditions. It has been designed for use in many modern transmissions, including many 10-speed transmissions that require enhanced performance requirements. It provides excellent anti-shudder performance and has enhanced low-temperature properties for high shifting performance in cold weather. The ultra-low viscosity fluid helps to increase fuel economy compared to higher viscosity fluids.

APPLICATIONS

ATLANTIC ATF ULV is recommended for use in many newer Ford and GM vehicles where the manufacturer recommends MERCON ULV or equivalent fluids. It meets the performance requirements of the latest 9 & 10 speed transmission designs, including the Ford* 10R80 found in select Ford F-150 and Raptor Trucks.

ATLANTIC ATF ULV is not recommended for use in dual clutch transmissions (DCTs), belt or chain driven continuously variable transmissions (CVTs), or older transmissions that require a higher-viscosity fluid. Please refer to the owner's manual for correct fluid recommendation.

PERFORMANCE FEATURES AND BENEFITS

- Very good lubricating ability even at low temperatures in winter
- Premium full synthetic fluid to achieve low viscosity and minimize deposits
- Excellent thermal and oxidation performance
- Excellent anti-shudder durability
- Excellent anti-wear performance to prevent gear wear
- Excellent metal-metal friction protection
- Designed to provide excellent torque transfer
- Extended transmission life

RECOMMENDATIONS / SPECIFICATIONS

AIISIN-WARNER AW-2, FORD 2 537 413, FORD 2537407, FORD HU7J M2C949 AB, FORD HU7J M2C949 BA, FORD MERCON ULV, FORD WSS-M2C949-A, FORD XT-12-QULV, GM DEXRON ULV, GM GM9986396, GM GMW16954, NISSAN MATIC-P, VW G F53 006 M2, VW G F53 007 M4

TYPICAL TECHNICAL PROPERTIES

PRODUCTS CODE:	TO-ATF-25009
Color, VISUAL	BLUE
Density at 15°C, g/ml, ASTM D4052	0.837
Kinematic Viscosity at 40°C, mm ² /s, ASTM D445	17.4
Kinematic Viscosity at 100°C, mm ² /s, ASTM D445	4.35
Viscosity Index, ASTM D2270	163
Flash Point(COC), °C, ASTM D92	200
Pour Point, °C, ASTM D97	-45

Note: These characteristics are typical of current production. While future production will conform to Atlantic's specification, variations in these characteristics may occur.
