

ATLANTIC SYNPOWER ART C6 SAE 0W-20 API SP

(Fully synthetic motor oil)

DESCRIPTION

This fully synthetic engine oil is designed to meet the Opel OV0401547 specification. The oil's ultra-low viscosity allows the latest engines to achieve their intended fuel economy. Additionally, the oil creates a strong layer that traps harmful particles, keeping the engine clean and protected. The oil is suitable for hybrid cars that meet OEM specifications.

APPLICATIONS

This engine oil offers full protection for a variety of modern passenger cars and light trucks with diesel or gasoline engines, whether they have an emission after-treatment system or not. Additionally, it works with the newest fuel types, like biofuels and ethanol-based fuels. The API SP specification demonstrates that the oil is compatible with highly fuel-efficient GDI engines and prevents LSPI from damaging engine components. This oil helps some of the most advanced engine designs achieve their fuel economy targets, which is proven by meeting the MB 229.71 standard.
